12. Where a number of documents in one form have been filled in evidence whether as one exhibit or not, it shall not be necessary to print more than one, but reference to the others may be made in the Paper-book by giving such particulars as to date or otherwise as may be necessary to show in what respect they differ from the document printed. A long series of documents, such as accounts, rent rolls, inventories, etc., shall not be printed in full, unless counsel so advise, but the parties shall agree to short extracts being printed as specimens.

13. In the case of appeals from orders the Paper-book shall contain only such papers as were used by the parties at the hearing and such other documents as both the appellant and the respondent consider necessary, or as the Registrar may direct on notice to the parties; the arrangement of the papers, proceedings and documents in Parts I and II shall follow that indicated in rule 11.

14. In all appeals each part of the Paper-book shall have an index in the following form:—

Number (for Part I only).	Mark, if any, in the Original Court (for Part II only).	Description.	Date.	Whether the whole or a portion, and if portion, what portion to be inserted in the Paper-book.	Page of Paper-book (to be filed in after).

19. Ordinarily there shall be printed thirty copies of the Paper-book, but the Registrar may at his discretion direct a larger number to be printed.

In addition to the copies abovementioned, fifty extra copies may be printed by consent of both parties or at the option of either of the parties. The extra cost in the one case shall in the first instance be shared equally and in the other case be borne by the party exercising the option.

As to these fifty extra copies the following further directions shall be observed:—

(1) The Paper-book shall be printed in accordance with all the directions given in Chapter XXXIII, Rule 15.

(2) Parts I and II shall be loosely stitched together.

CHAPTER XXXIII.

APPEALS TO THE PRIVY COUNCIL.

10. (*a*) The appellant shall within four days from the date of the order declaring the appeal admitted file in the Account Department of the Registrar's office a draft of the index of all documents to be included in the transcript or printed record and a list of all other papers, documents and exhibits in the suit or appeal, to be excluded therefrom under paragraph (*b*) hereof or under Order XLV, Rule 7 (*b*) of the Code, together with a requisition for the settlement of the index by the Registrar and shall furnish copies thereof to the other parties.

(*b*) The Registrar, as well as the parties and their agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject matter of the appeal, and generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents

and the unnecessary repetition of headings and other formal parts of documents; but the documents omitted to be printed or copied shall be enumerated in a typewritten list to be transmitted with the record.

13. The transcript or printed record for the use of the Privy Council shall consist of Parts I and II in the same volume, each part having its own index, but both indices shall be placed at the beginning of the volume. The contents of Part I and Part II with their indices shall be the same as those of Part I and Part II, respectively, as set forth in Rules 11 and 12 of Chapter XXXII, except that Part I shall contain the following additional documents in the order shewn :—

(1) The proceedings in the Appellate Court, if any.
(2) Judgment of the Appellate Court.
(3) Decree of the Appellate Court.
(4) Application for leave to appeal to the Privy Council with the grounds of appeal and affidavits, etc.
(5) Order on such application.
(6) Order declaring appeal to Privy Council admitted.

The parties will be responsible for arranging the record in proper order for the Privy Council, and in difficult cases counsel may be asked to settle it.

15. After the index and list have been settled, a copy thereof, and where there has been no Paper-book used in the appeal from the Original Side, copies of the records set out in the index to the various parts shall, where the record is to be printed here, be made over to the appellant's attorney. The appellant's attorney shall then cause the record to be printed in accordance with the following directions :—

(a) The Paper-book shall be printed in the form known as demy quarto, *i.e.*, 54 ems (or 9 inches) in length and 42 ems (or 7 inches) in width.

(b) The size of the paper used shall be such that the sheet when folded and trimmed shall be 11 inches long and 8½ inches wide.

(c) The type to be used in the text shall be pica type, but long primer shall be used in printing accounts, tabular matters and notes.

(d) The number of lines in each page of pica type shall be 47, or thereabouts, and every tenth line shall be numbered in the margin, *i.e.*, the tenth line being numbered 10 and the second tenth line 20 and so on.

(e) Each document shall have a heading which shall consist of the number of exhibit mark and the description of the document in the index, without the date.

(f) Each document shall have a marginal note which shall be repeated on each page over which the document extends, viz. :—

PART I.

(i) Where the case has been before more than one Court, the short name of the Court shall first appear. Where the case has been before only one Court, the name of the Court need not appear.

(ii) The marginal note of the document shall then appear consisting of the number and the description of the document in the index, with the date, except in the case of oral evidence.

(iii) In the case of oral evidence, "Plaintiff's evidence" or "Defendant's evidence" shall appear beneath the name of the Court, and then the marginal note consists of the number in the index and the witness's name, with "examination," "cross-examination" or "re-examination," as the case may be.

PART II.

The word "exhibits" shall first appear. The marginal note of the exhibit shall then appear consisting of the exhibit mark and the description of the document in the index, with the date.

(g) Each document in Part II shall be separately printed and paged at the foot of each page.

The extra fifty copies mentioned in rule 19 of Chapter XXXII may be utilised in Parts I and II for the use of the Privy Council, provided they comply with all the abovementioned conditions.

16. Before the Paper-book is printed, the final or press proof thereof shall (unless otherwise directed by the Registrar) be brought into the Registrar's office for the purpose of being examined by the Examiner's department of the Original Side and being passed by the Registrar. The Registrar may call for one or more further proofs until he is satisfied that the order to print can be given. The press proof may be submitted for examination and passing in sections, provided the sections are in consecutive order. (The Court-fee for examining and passing such proof or proofs shall be payable out of the Rs. 400 or other moneys deposited pursuant to rule 5 of this Chapter.)

STATEMENT OF OBJECTS AND REASONS.

The recommendations of the Indian Bar Committee in regard to the constitution of Bar Councils and their functions were as follows:—

1. An all-India Bar Council is impracticable. Statutory Bar Councils should, however, be established at Calcutta, Madras, Bombay, Allahabad, Patna and Rangoon, but provision should be made permitting the constitution of Councils at Lahore, Nagpur, Karachi and Lucknow later on. (Paragraphs 48 and 55.)

2. The Council should consist of 15 members, four of whom should be nominated by the High Court, including, where possible, the Advocate General or the Government Advocate and the Government Pleader. The remaining eleven, of whom six should be advocates of at least 10 years' standing, should be elected by advocates of the High Court, provided that in Calcutta and Bombay the High Courts should determine how many of the eleven should be advocates entitled to practise on the original side. The nominated members should ordinarily be advocates, but it should be left to the High Courts to nominate judges, past and present. (Paragraphs 57 and 58.)

3. The first Councils should hold office for 3 years, the term of office of subsequent Councils being determined by rules to be framed by the Councils themselves. (Paragraph 57.)

4. A Bar Council should have power to make rules subject to the approval of the High Court in respect of the following matters:—

(a) the qualifications, admission and certificates of proper persons to be advocate of the High Court,
(b) the powers and duties of advocates,
(c) the conduct of any examination which may be prescribed by it and the fees to be paid for appearing at the same,
(d) legal education, including the delivery of lectures to students and the fees chargeable therefor,
(e) matters relating to the discipline and professional conduct of advocates,
(f) procedure and practice in cases falling within the disciplinary jurisdiction of the Council,
(g) the method of holding elections of members of the Council and all matters incidental thereto,
(h) the meetings of the Council, the quorum necessary for the transaction of business, the election of a President or other officer and the appointment of committees for special purposes,
(i) the period for which a Council, after the first Council, should hold office and the filling of vacancies occurring between elections,
(j) the terms on which advocates of another High Court may be permitted to appear occasionally in the High Court to which the Council is attached, and
(k) any other matter prescribed by the High Court. (Paragraph 59.)

5. The rules regulating the election of the first Council and the filling of vacancies before rules are made by the Council should be made by the High Court, and it should be provided that no rules shall be made affecting the special provisions suggested for the original sides of the Calcutta and Bombay High Courts so long as those provisions remain in force. (Paragraph 59.)

6. A Bar Council should have power either of its own motion or on complaint or on a reference by the High Court to inquire into all matters of the kind referred to in sections 12 and 13 of the Legal Practitioners Act, 1879, breaches of rules and other improper conduct in which an advocate of the Court is concerned, and make a report to the High Court with a recommendation as to the action, if any, to be taken by the Court.

A Bar Council should also be entitled to be heard in any matter relating to the admission of an advocate or in support of any report made by it to the Court. (Paragraph 60.)

7. The existing disciplinary jurisdiction of the High Court should be maintained, but the Court should be bound before taking disciplinary action against an advocate, except in regard to contempt of court and the like, to refer the case to the Bar Council for inquiry and report. On receipt of a report from the Bar Council the Court should be empowered itself to make or require the Council to make further inquiry. At the request of a Bar Council or on its own motion a High Court should be authorised to order an inquiry to be held by a local court. (Paragraph 61).

8. Provision should be made for procuring with the sanction of the court the attendance of witnesses and production of documents required by the Council for an inquiry, and witnesses should receive the same protection as when they give evidence before a court. (Paragraph 61.)

(The paragraphs referred to are paragraphs in the Report.)

The Government of India consulted local Governments and High Courts upon these recommendations. In certain respects it appeared necessary to amplify them and in some respects to modify them in the light of the views urged by the authorities consulted. It is intended that these recommendations with the amplifications and modifications should be given effect to by or under the Bill.

2. The Bill is intended also to carry out [illegible] the following miscellaneous recommendations of the Committee :—

(a) The ideal to be kept in view should be the disappearance of different grades of legal practitioners so that ultimately there may be a single grade entitled to appear in all courts. At present the largest degree of unification possible should be effected. (Paragraphs [illegible] 17.)

(b) In all High Courts a single grade of practitioners entitled [illegible] should be enrolled, to be called advocates (not barristers), the [illegible] Court Vakils or Pleaders being abolished, and when special [illegible] maintained for admission to plead on the original side the [illegible] should be within that grade which shall consist of advocates entitled to appear on the original side and advocates not so entitled. (Paragraph 1[illegible])

(c) Advocates of one High Court should be entitled to practise in [illegible] High Court subject to conditions to be imposed by the Bar Council of the latter Court or by the Court where there is no Bar Council. (Paragraph 20.)

(d) Where there is a compulsory dual agency system at present it should be allowed to continue. (Paragraph 26.)

(e) The High Courts should retain their power to fix the amount payable by a party in respect of the fees of an adversary's legal practitioner. (Paragraph 61.)

(f) Partnerships between legal practitioners should be permitted wherever all classes of legal practitioners are entitled to act as well as to appear and plead. (Paragraph 69.)

(g) The High Courts, where this is not now permitted, should consider the advisability of allowing Indian barristers applying for enrolment as advocates to read with an approved Indian practitioner instead of reading in chambers in England, at least when it is shown that the individual cannot obtain entry in suitable chambers in England. (Paragraph 68.)

3. Incidentally it is intended that the provisions of the Bill and the rules which may be made under it shall, in regard to advocates entitled as of right to practise in the High Courts, replace the relevant provisions of the Legal Practitioners Act, the Bombay Pleader's Act and the Letters Patent of the various High Courts of Judicature as well as the rules made under those provisions. In regard to certain matters for which provision has not been made in the Bill it has however, been necessary to retain the residuary powers of the High Courts of Judicature under their Letters Patent.

In accordance with the recommendation of the Committee in paragraph 56 of their Report the enrolment and control of legal practitioners other than Advocates is left to the High Courts under the Legal Practitioners Act and the Bombay Pleader's Act as amended by the Bill.

4. The principal modifications of the Committee's recommendations which are contained in the Bill are as follows :—

(a) the constitution of the Bar Councils differs slightly from the recommendations in that the Advocate General must be a member and the number of members to be elected is ten, instead of eleven ;

(b) the rules regarding all elections of the Councils instead of only the election of the first Councils are to be made by the High Courts, the powers of the Councils in this respect being restricted to the making of bye-laws in regard to matters not provided for by the rules made by the High Courts. For the making of these bye-laws, however, the approval of the High Court will not be required ;

(c) power is given to the Councils, with the sanction of the High Court, to prescribe fees to be payable to the Councils in respect of admission and enrolment and of the issue of certificates ; and

(d) the powers of the Councils to hold inquiries into complaints of unprofessional conduct are restricted to cases referred to the Council by the High Court, and the inquiries are to be held by a Tribunal consisting of members of the Council appointed for the purposes of the inquiry by the Chief Justice or Chief Judge of the High Court. The High Court is, however, required to refer all complaints of unprofessional conduct which it does not dismiss either to the Bar Council or to a subordinate court for inquiry. Instead of requiring the sanction of the Court for compelling the attendance of witnesses in each case a Tribunal is given power to enforce such attendance. A Tribunal is also given power to administer oaths to witnesses, and the protection of the witnesses who give evidence, which was recommended by the Committee, is secured by applying the provisions of section 132 of the Indian Evidence Act to proceedings before a Tribunal. On the other hand, rules governing the procedure of a Tribunal are to be prescribed by the High Courts instead of by Councils with the approval of the High Court.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat Crop of Bengal, 1925-26.

NOTE.—On an average of the five years ending 1923-24, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1923-24, averaged (*a*) 42·2 and (*b*) 14·7 per cent., respectively.

Explanatory.—Four forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers the total area sown amounts to 130,600 acres against 127,300 and 126,400 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—With sufficient soil moisture as a result of rainfall during the months of September and the first half of October the sowings commenced at the normal time except in Dinajpur and Bogra where they were a little late. Dry and sunny weather in December was helpful to the growth and the present outlook is, so far, promising on the whole.

RESOLUTION ON THE SIXTY-THIRD ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1924-25.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Cinchona.

CALCUTTA, THE 22ND JANUARY 1926.

RESOLUTION—No. 899.

READ—

The sixty-third annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1924-25.

READ ALSO—

The report of the previous year.

Mr. C. C. Calder officiated as Superintendent throughout the year.

The area under cinchona at the end of the year was 3,060 acres. No extension of any importance was carried out at Mungpoo and Munsong, but other ranges have been explored with the result that an area of about 600 acres has been found in the Latpanchor forest with conditions sufficiently favourable to justify the cultivation of experimental plots.

The quantity of cinchona harvested during the year was considerably less than in the year 1923-24. This appears to have been due to the large stocks of bark already held at the factory as the total quantity of bark worked up at the factory was some 54,000 lbs. more than in the previous year. Rather more than half of this bark was Java bark belonging to the Government of India.

The quantities of quinine sulphate and other alkaloids prepared from provincial bark were almost the same as last year, the figures being 19,230 lbs. of quinine sulphate and 8,348 lbs. of other alkaloids. There was a considerable increase in the total outturn of the factory, but this was in products from Java bark.

The manufacture of quinine tablets for sale through post offices has been transferred from the Juvenile Jail, Alipore, to the Presidency Jail. Machines for the manufacture of these tablets have been ordered and will be installed at the Mungpoo factory. The manufacture of the tablets will then be transferred to Mungpoo. Provision has also been made for the erection of ferro-concrete tanks for storing quinine in the crude form, as storage in tins has been found unsatisfactory.

The financial results were again satisfactory, although the surplus receipts over expenditure fell from Rs. 4,56,825 in 1923-24 to Rs. 4,42,934 in the year under report, and the value of stock at the end of the year was almost Rs 30,000 less than at the beginning. The total expenditure was Rs. 3,33,626, being slightly lower than in the previous year. The receipts including the jail share for the sale of quinine tablets were Rs. 7,76,560 and were some Rs. 16,000 less than in 1923-24.

Although the quantity of quinine salts supplied to dispensaries and District Boards in Bengal increased by more than 1,600 lbs., there was a decrease of more than 3,300 lbs. in the total quantities sold. This decrease was compensated for by an increased demand for cinchona febrifuge, to meet which 5,000 lbs. had to be obtained from Madras. The price of quinine sulphate fell during the year from Rs. 28 to Rs. 24, and there were similar reductions in prices of other products.

The thanks of Government are due to Mr. Calder for his sound administration of the plantations and to Mr. Shaw, Government Quinologist, for the successful working of the factory.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION FOR THE YEAR ENDING THE 30TH JUNE 1925.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Emigration.

CALCUTTA, THE 16TH JANUARY 1926.

RESOLUTION—No. 723Emi.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1925, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

There was a noticeable decrease in the number of emigrants despatched to the labour districts during the year under review as compared with the previous year, but the total number was still greater than those of 1921-22 and 1922-1923.

2. Recruitment in Bengal was, as in previous years, confined to the districts of Bankura, Birbhum, Burdwan and Midnapore. The number of garden sardars employed during the year was 215 as against 253 in the preceding year. All worked under the supervision of licensed local agents. The number of local agents' licenses issued was 18 as against 21 licenses granted in the previous year. The total number of emigrants registered by garden sardars in Bengal was 406 as against 217 in the preceding year. The largest number registered was in the Midnapore district, viz., 369. The total number of recruits from Bengal and other provinces embarking at Goalundo was 12,625 (including two remaining at Goalundo at the close of the previous year) as against 17,054 in the preceding year.

3. Arrangements for river transport were satisfactory. Only one death due to cholera occurred at the halting station at Kharagpur, and there was no death at the other two halting places at Asansol and Naihati. Of the 12,638 emigrants, who arrived at Goalundo from the recruiting districts in and outside the Presidency of Bengal, five deserted, eight were released, and two died. There was no casualty amongst the emigrants during their journeys by steamer from Goalundo or by railway from Chandpur to their final destination. There was one case of desertion amongst the emigrants who embarked at Goalundo for the Brahmaputra Valley.

4. In connection with the transport of labour to Assam, receipts amounted to Rs. 1,796 as against Rs. 2,100 in the preceding year, while the expenditure increased from Rs. 7,781-12-1 to Rs. 13,595-6-2.

5. The office of the Superintendent of Emigration, Calcutta, was held by Lieutenant-Colonel C. A. Gourlay, I.M.S., from the beginning of the year under review up to the 18th October 1924, when he proceeded home on leave after making over the charge to Lieutenant-Colonel A. Denham White, I.M.S., who held the appointment from the 19th October 1924 to the end of the year under review. The thanks of the Governor in Council are due to both these officers and also to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

W. S. HOPKYNS,
Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Sugarcane Crop of Bengal, 1925-26.

NOTE.—On an average of the five years ending 1923 24, the area under sugarcane has represented some 7·6 per cent. of the total area under sugarcane in British India.)

Character of the season.—As indicated in the second forecast the weather was favourable at the outset. But heavy rains before the setting in of the monsoon adversely affected the outturn in the important districts of North Bengal. In East Bengal, particularly in the Dacca Division, a good crop has been reaped, whereas in West Bengal the crop somewhat suffered from insufficient rain.

Acreage.—The total area planted with the crop for the province is estimated at 215,000 acres this year as against 206,200 acres last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province works out at 85 per cent. of the normal this year as against 76 per cent. last year.

Taking 36½ maunds as the normal yield of cane-*gur* per acre, the gross outturn for the province is estimated at 245,000 tons this year as against 210,100 tons last year.

Other sources of Gur.—The total quantity of *gur* likely to be obtained from date-palm juice and others is estimated at 108,500 tons this year as against 116,700 tons (revised) last year.

The quantity of *gur* for the province from all sources is thus estimated at 353,500 tons this year as against 326,800 tons (revised) last year.

Director of Agriculture, Bengal (offg.).

Nadia ...	7,900	6,500	6,800	67	75	Latter part of December. Normal.	The weather was, on the whole, fair. The outturn is below the normal for want of timely rain.
Murshidabad ...	3,600	3,300	3,400	83	75	End of November. Normal.	The effects of weather on the cultivation and growth of the crop were fair. The drought that followed a little after the planting time told a little on the growth of the crop and the outturn is consequently below the normal.
Jessore ...	5,200	2,500	2,300	67	56	December. Normal.	The weather was not favourable.
Khulna ...	1,500	400	400	75	83	....	The weather was on the whole fair.
Burdwan ...	11,600	13,500	15,400	75	83	Will commence by the 1st week of February next. Normal.	The increase in area is due to timely rainfall. The effects of weather on the cultivation and growth of the crop were fair.
Birbhum ...	9,800	6,000	8,000	97	150	Will commence in February. Normal.	The increase in area is due to favourable weather and its effects on the growth of the crop were good.
Bankura ...	3,100	2,100	3,000	83	83	Not yet commenced.	The increase in area is due to sufficient rainfall at the planting time. The effects of weather on the growth of the crop were fair.
Midnapore ...	6,600	6,400	5,600	58	67	Middle of January. Normal.	The decrease in area as compared with estimate in the secon forecast is due to revision. The outturn is expected to fal much below the normal ewing to unfavourabie weather conditions in planting time.
Hooghly .	8,200	3,500	3,700	75	90	Not yet commenced.	The increase in area is due to the high price of *gur* obtained last year and to favourable weather condition at planting time. The weather was, on the whole, favourable, but want of adequate rain slightly stunted the growth of the crop at some places in the Sadar subdivision.
Howrah ...	5,200	3,800	3,800	48	92	Ditto ...	The effects of weather on the cultivation and growth of the crop were favourable.
Rajshahi ...	7,500	6,000	5,500	100	83	December. Normal.	The decrease in area is due to ordinary fluctuation. Some damage was done to the crop at Natore by constant rainfall. The outturn is expected to fall below the normal owing to the unequal distribution of rain.
Dinajpur ...	29,500	29,500	30,700	80	66	First part of December. Normal.	The increase in area is due to high prices of molasses. The weather was favourable at the planting time, but subsequent heavy rains damaged it to a great extent.

Jalpaiguri ...	6,000	5,000	4,700	100	83	October to December. Normal.	The decrease in area is due to excessive rainfall. The effects of weather on the growth of the crop were fair. Heavy rainfall caused the outturn to fall below the normal.
Darjeeling ...	200	300	300	83	83	December. Normal.	The effects of weather on the cultivation and growth of the crop were fair.
Rangpur ...	11,900	21,500	22,800	75	75	First week of January. Normal.	The effects of weather were fair.
Bogra ...	6,700	3,900	4,100	90	100	Will commence in February. Normal.	The increase in area is due to the spread of the departmental *tanna* canes. The weather was favourable and the growth of the crop good.
Pabna ...	5,600	5,000	5,000	83	83	First week of December. Normal.	The weather was favourable at the sowing time, but excessive rain at the intervening period, specially in May, adversely affected the growth to a certain extent.
Malda ...	300	200	100	75	83	Middle of December. Normal.	The increase in area is due to introduction of the Agriculture Department *tanna* canes. The effects of weather on the growth of the crop were fair. The outturn is below the normal owing to prolonged rains.
Dacca ...	21,100	20,100	22,900	80	93	......	The increase in area is due to most of the waste lands being brought under cultivation and also to cultivation of failed areas of *bhadoi* crops. The weather was favourable at the beginning, but early flood damaged the crop to a certain extent and caused the outturn to fall below the normal.
Mymensingh ..	11,100	16,500	16,600	75	100	November and December. Normal.	The weather was favourable on the whole.
Faridpur ...	7,400	6,900	6,700	70	94	December. Normal.	The effect of weather on the cultivation and growth of the crop were favourable, but in some places occasional rain affected the growth.
Bakarganj ..	18,800	29,500	29,000	67	100	January and February. Normal.	The decrease in area is due to extended cultivation of *bhadoi* crops including jute. The effects of weather were good on the growth of the crops. Damage by stem borer was reported from places.
Chittagong ...	5,300	6,000	6,000	83	92	October to February. Normal.	The weather was favourable. The outturn is expected to fall below the normal on account of injury caused by insect pests in some parts of the district. The prospect of *tanna* sugarcane which was newly introduced is reported to be favourable.
Tippera ...	6,100	4,100	3,900	67	75	November. Early.	The decrease in area is due to excessive rainfall.
Noakhali ...	800	1,300	1,600	83	83	November. Normal.	The increase in area is due to high price of molasses. The weather at planting time was not favourable.
Chittagong Hill Tracts.	1,000	1,000	1,000	80	75	End of December. Normal.	The weather was fair on the whole. Want of rain at the sowing time caused the outturn to fall below the normal.

But any such commutation shall be subject to the condition that—

(*a*) if the pension exceeds £180 when payable in London, or Rs. 2,057 when payable in India, not less than £150 (or Rs. 1,714) of its value shall remain uncommuted ; and

(*b*) if the pension is less than £180 (or Rs. 2,057), not more than £30 (or Rs. 343) of its value shall be commuted, and not less than £120 (or Rs. 1,371) shall remain uncommuted :

Provided that the sanctioning authority may at its discretion relax or waive this condition in the case of a pension granted under the Premature Retirement Rules.

4. On the application of any Government servant to whom Rule 3 does not apply, the sanctioning authority may, on such conditions as it thinks fit to impose, sanction the commutation for a lump payment of a portion, not exceeding one-half, of any pension which has been or is about to be granted to him under civil rules.

5. Applications shall be addressed—

(*a*) in the case of pensioners who draw their pensions from Indian Treasuries, or who, being resident in Colonies having an account current with the Accountant-General, Central Revenues, draw their pensions from the local Treasuries, to the local Government or to the Government of India, as the case may be ; and

(*b*) in the case of all other pensioners, to the High Commissioner for India, provided that in the case of pensioners residing in a Dominion or Colony, other than those referred to in clause (*a*) of this rule, the application shall be addressed to the High Commissioner through the official from whom the pension is drawn.

6. No commutation shall be sanctioned until the pensioner has produced a certificate from such medical authority as may be prescribed in this behalf by the sanctioning authority to the effect that his bodily health and prospects of duration of life are such as to justify commutation.

7. The lump sum payable on commutation shall be calculated in accordance with a table or tables of present values which shall be prescribed by the Governor General in Council in the case of pensioners whose applications are addressed to a local Government or to the Government of India, and by the Secretary of State in Council in all other cases. For the purpose of this rule, the age of the pensioner shall be assumed to be such age, not being less than his actual age, as the certifying medical authority may direct.

8. When commutation has been sanctioned the pensioner shall be informed accordingly, and shall have the option of withdrawing his application within one week after being so informed. If he does not withdraw his application within that period, the commutation of pension shall become absolute, and payment of the lump sum shall be made forthwith, payment of the commuted portion of the pension thereupon ceasing.

9. The lump sum, if calculated in accordance with the table of present values prescribed by the Governor General in Council, shall be payable in India; in all other cases it shall be payable at the Home Treasury.

10. If, when the commutation of a portion of a pension has been sanctioned, the pensioner dies on or after the date from which commutation is to take effect, but before receiving the commutation value, this value shall be paid to his heirs.

NO[illegible]ON.

No. 508L., dated Calcutta, the 2n[illegible] 1926.—The following Report of the Select Committee on the Bengal Local Sel[illegible] (Amendment) Bill, 1925, with the Bill as amended by the Committee, is hereb[illegible] for general information :-

REPORT OF THE SELECT COMMITTEE ON THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1925.

We, the members of the Select Committee appointed to consider the Bill further to amend the Bengal Local Self-Government Act of 1885, beg to submit this, our Report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

The possible application of the proposed Act to the Darjeeling district under the Government of India's notification No. 2G., dated the 3rd January, 1921, was considered, as some of the provisions of the proposed Act would not be suitable for that district. It was decided that as the Bengal Local Self-Government Act of 1885 does not apply to the Darjeeling district, no reference need be made in the Bill to that district and the proper course would be for that Act as amended up to date to be applied to the Darjeeling district under the notification of the 3rd January, 1921, with such modifications as may be deemed necessary.

2. The more important changes we have made in the Bill are as follows:—

Clause 1A.—This new clause which we have inserted merely contains a necessary drafting alteration, other necessary changes being made throughout the Bill in relation to the clause.

Clause 2.—The majority of us consider that the question of the proportion of members of District Boards to be elected by Local Boards is one in respect of which it is necessary to obtain an opinion from the various District Boards and local officers and that it cannot be suitably dealt with in a Bill of this nature which is being treated as an emergency measure. The question may be left over to be dealt with in the Bill which is under contemplation to amend the Act generally. Clause 2 has therefore been omitted.

Clauses 3, 4 and 5 have been omitted for similar reasons.

Clause 6.—We are of opinion that the proposed amendment requires modification. As it stands, it would permit *any* graduate, *e.g.*, a visitor from Australia, to qualify for election as a member of a Local Board referred to in section 13 of the Act. We have therefore recast the clause in order to avoid this contingency.

Clause 7.—We are of opinion that the provision as to refusal to act as a member of a Board should be retained, but that the principle of the clause may be accepted. The clause has been recast accordingly.

Clause 8.—This clause has been redrafted by us on the lines of sub-section (*2*) of section 22 of the Calcutta Municipal Act, 1923, which makes an offence involving moral turpitude and carrying with it a certain sentence a reason for making a Councillor ineligible for appointment for five years.

Clause 12.—Sub-clause (*1a*) which we have inserted contains a necessary consequential amendment.

Clause 13.—In sub-section (*1*) of the proposed section 30A we have provided that the appointment of a Secretary by a District Board is to be permissive and not compulsory.

Sub-sections (*2*) and (*3*) of the proposed section have been recast on the lines of sub-sections (*1*) and (*4*) of section 12 and section 52 of the Calcutta Municipal Act, 1923, and now appear as sub-sections (*1a*), (*1aa*) and (*2*).

Clause 13A is consequential on clause 13.

Clause 14, and other similar clauses.—We are of opinion that the various powers given to the Lieutenant-Governor (now the Governor in Council) by sections 32, 38, 62, 63, 64A, 66, 71, 85, 86, 87, 91, 95, 100 and 120 of the Act must be retained. Clauses 14, 16, 23, 24, 25, 26, 27, 29, 30, 31, 33, 34 (*3*), 36 and 37 have therefore been omitted.

Clause 18.—Sub-clause (*2*) has been altered so as to provide for the financial statements to be sent to the Commissioner by the District Board for his suggestions which they must take into consideration.

Clauses 19 and 22 have been omitted, but are reproduced in the new repealing clause 44.

Clause 28 has been amplified so as to incorporate in section 78A of the Act provisions on the lines of section 3 of the Bengal Highways Act, 1925, which require, where possible, some other means of access when a road is closed, and an alternative route in the case of the closing of more than half a mile of road at a stretch. It has also been provided that Government roads temporarily vested in District Boards shall be exempted from the application of section 78A.

Clause 35.—Measures for the relief of famine or serious distress can best be organized in consultation with the local officers of Government and we consider that the Commissioner's power of limiting the expenditure referred to in section 99 should be retained. The clause has therefore been omitted.

Clauses 38, 39 and 40.—We have decided by a majority that the powers of the Commissioner and the Magistrate under sections 124, 125, 126, 127 and 128 should be retained. We have therefore omitted clauses 38, 39 and 40.

Clause 41.—We are of opinion that it is not desirable to give the rule-making power referred to in sub-clause (*1*) to the District Board.

As regards sub-clause (*2*) it was pointed out that a ballot system is at present followed in the case of the election of a Chairman or Vice-Chairman of the Boards, and that Government are taking steps to introduce the ballot system in the case of the members of the Boards. Clause 41 has therefore been omitted.

Clause 44.—This new clause reproduces clauses 19 and 22.

The Bill was published in accordance with Rule 20 of the Bengal Legislative Council Rules, 1920, in the *Calcutta Gazette* of Thursday, 27th August, 1925.

We consider that the Bill has not been so altered as to require republication.

Minute of Dissent by Maulvi Sayedul Hoque, M.L.C.

I regret that I am unable to agree to the following:—

Clause 2.—The basis of my argument rests on the principle that the local bodies are to be responsible self-governing institutions of representatives. This principle, I believe, derives its authority from the various declarations of the Government. If this principle is not to be upheld, I have nothing to say. If, however, this principle is to be maintained, the proportion of the members of District Boards to be elected by Local Boards ought to be raised, because the present proportion of nominated members generally commands the majority on account of pressure of their official influence *de facto* though *in jure* they may be supposed not to utilise that influence. We have seen many salaried servants of the Government taking active part in these matters and even it has been proved in Courts. Moreover the Bill, in my opinion, cannot be called an emergent one. It had been introduced in one session of the Council, it had been published in the *Calcutta Gazette*, and then it has been referred to a Select Committee in the last session of the Council. And again nothing is certain what the Government will be doing in respect of the Bill in the contemplation of the Government on the subject. Therefore clause 2 ought to be retained.

Clauses 3, 4 and 5 ought to be retained for similar reasons.

Clause 8.—I cannot agree to this clause, as amended by the Select Committee, unless "moral turpitude" in the proviso is defined and definitely told under what sections of the Criminal Procedure Code this "moral turpitude" shall be treated.

Clauses 14, 16, 23, 24, 25, 26, 27, 29, 30, 31, 33, 34 (3), 36, 37 and 42 ought to be retained for reasons similar to those given for the retention of clause 2.

Clause 35.—The value of consultation with local officers of the Government on measures for the relief of famine or serious distress can be appreciated, but this does not call for the interference of the Commissioner. So clause 35 ought to be retained.

Clauses 38, 39 and 40.—In addition to what I have said regarding the retention of clause 2, it may be said that there is no reason to suppose that a body of qualified, responsible and representative members shall be so irresponsible as to undertake any work which is likely to cause any injury or annoyance to the public or to any class or body of persons or to lead to a breach of peace or to neglect any work, the non-performance of which may lead to public unsafety or serious inconvenience. It is rather derogatory to local bodies. Therefore, clauses 38, 39 and 40 ought to be retained.

Clause 41.—In my opinion the rule-making power in some matters ought to be given to District Boards and secret voting by ballot will guarantee free exercise of voters. Therefore clause 41 ought to be retained.

Minute of Dissent by Babu Bejoy Krishna Bose, M.L.C.

I sign this Report subject to the following note of dissent. I am in favour of substitution of "four-fifths" for "one-half", as provided for in clauses 2, 3 and 4 of the Bill. It is unfortunate that the mover of the Bill was not present at the meeting of the Select Committee. I take it his object was to introduce a larger element of elected members in the District Boards. I fail to understand how the Bill can be considered as "an emergency measure". It has for one of its objects the liberalising of the

present constitution of the Boards. In any measure that may be undertaken by the Government for amending the whole Act, which I understand it is the intention of the Government to do, there will be no question of increasing the number of appointed members. On the other hand, in accordance with the altered state of things, there will be a larger element of elected members. I would go further and state as my definite opinion that the constitution of the District Boards should be wholly elective, and the Bill, as it is, does not go far, as it should have done. Official control of, and official *bloc* in, the Boards ought to cease.

Clause 5 follows as a necessary corollary to the above clauses and I am in favour of its retention. I am in favour of retention of clauses 16 and 17 of the Bill. There ought to be as little interference with the work of the Union Committee as possible, and this cannot be insured unless two-fifths of the members of these committees owe their seats, not to the pleasures of the Circle Officers, who represent the Government in these cases, but to election by the cess-payers living within a Union.

Clause 19 should be retained, thereby omitting section 48 of the Act. The last paragraph of section 47, as suggested and adopted by the Select Committee, will meet the requirements of the situation, and the estimates, after they had been considered in the light of the suggestions made by the Commissioner, need not be resubmitted to him, nor are his directions necessary.

I am in favour of clause 37 as the first step in a tardy instalment of Local Self-Government our Rulers can give us. The District Boards should be free of the leading strings. Commissioners and District Magistrates can bring to the notice of Government anything in the action of the District Boards they do not approve. But they should not interfere in any way. It follows from what I say here that I am also in favour of clauses 38, 39, 40, 41 (1) and 43 of the Bill.

NOTIFICATION.

No. 509L., dated Calcutta, the 2nd February, 1926.—The following Report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1925, with the Bill as amended by the Committee, is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1925.

We, the members of the Select Committee appointed to consider the Bill to amend the Bengal Village Self-Government Act, 1919, beg to submit this our report, with the Bill as amended by us annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

In clause 2 of the Bill we have considered it desirable to revise the proposed new section 20 of the Act so as to secure that where the approval of the District Magistrate is withheld from the action of the union board in appointing or dismissing a dafadar or chaukidar the reasons for withholding approval shall be recorded in writing. We have introduced a further provision enabling the District Magistrate to make an appointment if the union board fails to perform its duty in this respect within a reasonable time, which we have defined as two months from the occurrence of the vacancy either in the ordinary course or from the fact that an appointment made is not approved by the District Magistrate.

We have considered it desirable to remodel sub-section (*2*) of the proposed new section 20 so as to leave the District Magistrate in possession of the power to dismiss a dafadar or chaukidar in certain circumstances which we have specified. We consider this necessary in view of the fact that dafadars and chaukidars have, under section 23 of the Act, to perform certain duties of the nature of police work from which the union board is almost entirely dissociated and which it is advisable that the District Magistrate should be able to enforce. The power of dismissal by the District Magistrate can only be exercised after the union board have been consulted, and the reasons for such dismissal must be recorded in writing.

Our recommendations of the above points are unanimous.

We have decided by a majority to leave to the District Magistrate the duty of determining the nature and cost of the equipment of dafadars and chaukidars.

We consider in the first place that uniformity is desirable and that this can best be secured by the system at present in force; secondly, that the determination of the nature of the uniform appears to be a matter which can best be left to executive officers, while the actual charge on the union fund for this purpose is a comparatively small sum, and, finally, we are of opinion that it is impracticable to separate the cost of equipment from the nature of equipment since the one in effect determines the other.

The Bill was published in accordance with rule 20 of the Bengal Legislative Council Rules, 1920, in the *Calcutta Gazette* of Thursday, 27th August, 1925,

We consider that the Bill has not been so altered as to require republication.

We recommend that the Bill, as amended by us, be passed.

Note of Dissent by Babu Boroda Prosad Dey, M.L.C.

I sign this report subject to my note of dissent, namely, that the right to determine the nature and cost of the equipment of dafadars and chaukidars should be left to the union boards, who shall pay for the same, and who are not likely to do anything in the wrong way. In order to secure uniformity, though it is not so rigidly required, some general rules may be made by the Local Government in this behalf, and amended from time to time upon the representations of union boards, to which union boards shall have to conform in determining the nature and cost of such equipment.

Further, it seems there have been printing mistakes in two places of the amended Bill in omitting the words *in writing* in sub-section (*3*) of section 20, and in the proviso to sub-section (*1*) of section 21. This is only formal.

Note of Dissent by Rai Harendranath Chaudhuri, M.L.C.

While I am glad that the Select Committee have accepted more than one proposal in my Bill to amend the Village Self-Government Act and must thank them for their endeavours to improve and amplify some of the provisions in the Bill, I regret I cannot agree with them on two very important points.

In clause 2 of the Bill [sub-section (*2*) of the proposed new section 20], as it was framed by me, the power to dismiss chaukidars and dafadars was proposed to be conferred on the union board, subject, of course, to the subsequent approval of the District Magistrate. Such power the Panchayet enjoyed even under the older Act of 1870. The Select Committee have chosen to add that the District Magistrate shall also have the power to dismiss the chaukidars and dafadars and thus they propose to retain the present dual authority and continue the existing unhappy arrangement under which the village police have to serve under two masters. By the amendment made by the Committee practically the greater control is given to the District Magistrate, for in both cases he is given the power of dismissal—in one case the direct and in another the indirect. The union board is not even made a co-ordinate authority with equal powers over the chaukidars, and the result of it will be the continuance of the present unsatisfactory state of things.

The second point on which I find myself in greater disagreement with the view of the majority is about the authority which is to determine the nature and cost of equipment of the village police. In clause 3 of the Bill, as it was framed by me, I proposed that the union board should have the power to determine the *nature and cost* of the equipment involved, as the latter did the larger question of the disbursement of the village fund. Those who would pay the tax and raise the fund should have, in my opinion, the control of the expenditure thereof. But the question was raised how, if the District Magistrate was divested of the power, uniformity in the matter of equipment would be secured. I think the clause, as it originally stood, secured it by providing for the approval of the District Magistrate and it could be further secured by providing for the maintenance of the present equipment so long as it was not changed with such approval. But then, again, it was contended that it might stereotype the present uniform. How that could be such a serious contingency as to justify the conclusion that the union board must go without the power to determine the *nature and cost* of the equipment I for myself fail to understand. However, I was prepared to yield on the question of the *nature* of the uniform and to take out the word "nature" from the Bill and leave the determination of the *nature* of the uniform to the District Magistrate. But the majority, accepting the view

that with the *nature* of the equipment went the question of its *cost* as well, preferred to retain intact the power of the District Magistrate in the matter of determination of *both the nature and the cost* of equipment and refused to transfer to the union board the authority to determine even the *cost* of equipment of chaukidars. As I was unable to attach so much weight and importance to the plea—that the question of the nature and that of the cost of equipment are absolutely inseparable—as to ignore the greater bearing of the latter on the funds of the union board I could not agree with the majority view of making the District Magistrate the sole authority in the matter of the determination of the *cost* of equipment of chaukidars and thus consent in a way to the continuance of the external control of village taxation and finance. Such a power vested in the District Magistrate as distinguished from the union board appears to me absolutely inconsistent with all idea of village self-government, and I feel bound therefore to dissent from the view that the majority have taken in this matter.

Note of Dissent by Maulvi Sayedul Hoque, M.L.C.

I sign the report, subject to the following minute of dissent. I do not agree to leave to the District Magistrate the duty of determining the nature and cost of the equipment of dafadars and chaukidars, because the charge for this purpose is made on the union funds; and, therefore, the union boards ought to be autonomous on the subject. If, however, much stress is given on the uniformity of equipment among different union boards, it may be left to the District Magistrates to determine the nature, but, by no means, should the hands of those, who supply the cost, be fettered to determine how much they are in a position to pay, unless we do not mean to avoid the cases of hardship upon the taxpayers, and of financial death to many urgent and important local works.

THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1925;

(*as amended by the Select Committee*).

[NOTE.—All changes made by the Select Committee have, so far as possible, been underlined.]

A

BILL

to amend the Bengal Village Self-Government Act, 1919.

Preamble.

WHEREAS it is expedient to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1925.

New section substituted for section 20 of Bengal Act V of 1919.

2. For section 20 of the Bengal Village Self-Government Act, 1919 (hereinafter referred to as the said Act), the following shall be substituted, namely:— Ben. Act V of 1919.

Appointment and dismissal of dafadars and chaukidars.

"**20.** (*1*) The union board shall, when a vacancy exists, appoint a person to be a dafadar or a chaukidar subject to the approval of the District Magistrate:

Provided that if the union board fails, within two months from the time when the vacancy occurs or from the date when the disapproval of the District Magistrate is communicated to the union board, to make an appointment, the District Magistrate shall appoint any person whom he thinks fit to be a dafadar or a chaukidar.

(*2*) The union board may dismiss any dafadar or chaukidar subject to the approval of the District Magistrate, and the District Magistrate may dismiss any dafadar or chaukidar who has failed to exercise the powers or to perform the duties referred to in section 23:

Provided that when making an order dismissing a dafadar or a chaukidar the District Magistrate shall consider the views of the union board and shall record his reasons in writing.

(*3*) If the District Magistrate withholds his approval from any action taken by the union board under sub-section (*1*) or sub-section (*2*) he shall record his reasons for so doing.

(*4*) Notwithstanding anything contained in sub-section (*1*) any dafadar or chaukidar already employed in any union existing at the commencement of the Bengal Village Self-Government (Amendment) Act, 1925, shall be deemed to have been appointed under this Act."

Amendment of section 21.

3. In section 21 of the said Act—

(*1*) for sub-section (*1*) the following shall be substituted, namely:—

"(*1*) The number of dafadars and chaukidars to be employed in a union and the salary to be paid to them shall be determined, from time to time, by the union board subject to the approval of the District Magistrate:

Provided that if the District Magistrate withholds his approval he shall record his reasons for so doing.

The Bengal Village Self-Government (Amendment) Bill, 1925.

(Clause 3.)

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Municipal (Amendment) Act, 1925.

Insertion of new sections 557A and 557B in Ben. Act III of 1923.

2. After section 557 of the Calcutta Municipal Act, 1923, the following shall be added, namely:—

Savings of certain suits and proceedings.

"**557A.** (*1*) A suit or legal proceeding instituted, or which might but for the passing of this Act have been instituted, by the General Committee or the Chairman under the Calcutta Municipal Act, 1899, may be continued or instituted by the Corporation as constituted under this Act: Ben. "**557B.** Save as otherwise expressly provided in this Act, the powers and duties of the General Committee under the Calcutta Municipal Act, 1899, shall, from the commencement of this Act, be deemed to have vested in the Corporation in respect of all matters whatsoever which have arisen under the provisions of the Calcutta Municipal Act, 1899."

STATEMENT OF OBJECTS AND REASONS.

The Calcutta High Court has recently ruled in the case of Ramgopal Goenka *vs.* Corporation of Calcutta that the Corporation constituted under Bengal Act III of 1923 have no power to take proceedings in respect of breaches of the building regulations committed before that Act came into force. This decision is based on the fact that there is no provision in the new Act substituting the present Corporation in the place of the General Committee which under the repealed Bengal Act III of 1899 was entitled to initiate such proceedings. As a result of this ruling, the Corporation are powerless to take proceedings in over 200 cases in which serious infringements of the building rules were committed when the old Act was in force.

The Bill proposes to take power for the Corporation to initiate or continue proceedings not only in respect of breaches of building regulations but for any breach of the repealed Act of 1899.

The additions and alterations which it is proposed to make in Bengal Act III of 1923 are explained in detail in the subjoined notes on clause.

KSHAUNISH CHANDRA RAY,

Member-in-charge.

CALCUTTA:

NOTES ON CLAUSE 2.

Proposed new section 557A.—It is proposed to meet the situation disclosed by the High Court judgment—in Ram Gopal Goenka *vs.* The Corporation of Calcutta, by introducing this section into the Calcutta Municipal Act, 1923. The section has been made general in its scope, to cover other cases than that actually dealt with in the High Court judgment, namely, prosecutions, etc., for any breach of the repealed Act of 1899.

Sub-section (1) explains itself. The Corporation desired to limit their powers of pursuing breaches of the old Act to 3 years from the commencement of the Calcutta Municipal Act. The proviso to this sub-section imposes a limitation of this kind, but defines the limit as 6 months from the passing of this Act.

Sub-section (2) meets one of the points made in the High Court judgment, namely, that the Corporation did not succeed the General Committee in respect of the functions in questions in the case cited. The second part aims at overcoming a possible contention that where the General Committee has complied with the requirements of the old Act and those requirements are not the same as the requirements of the new Calcutta Municipal Act, a proceeding should fail because the requirements of the Calcutta Municipal Act had not been satisfied.

Sub-section (3) provides that the procedure under the new Act should be followed as far as practicable, without however making it necessary for the Corporation to do over again what has already been done by the General Committee. The sub-section aims at covering a wider field than mere contraventions of sections 449 and 450 of the repealed Act of 1899.

Sub-section (4) aims at validating the re-institution of magisterial and other proceedings which may have been disposed of on the strength of the High Court judgment. The two alternative reasons adduced by the Hon'ble Judges why the proceedings against Ram Gopal Goenka must fail have been specifically enumerated in view of the possibility that either or both have been subsequently quoted in other cases by Magistrates disposing of similar matters.

Sub-section (5) requires some explanation. Section 631 of the Act of 1899 limits the time within which a prosecution under the Act can be launched to 3 months, or in one special case to 6 months after the commission of the offence. Section 534 of the Calcutta Municipal Act, 1923, reproduces the section. It would seem that the section has no reference to proceedings before a Magistrate under sections 449 and 450 of the repealed Act, or sections 363 and 364 of the present Act, since what is there being sought from the Magistrate is a direction to demolish, not a conviction for an offence. But a contravention of the building regulations might also be pursued as an offence under section 579 of the repealed Act and failure to comply with a magisterial direction to demolish might be pursued as an offence under sections 580 and 581. The Act of 1923 has similar provisions in sections 488 and 493. The Act of 1923, however, has two important provisions not contained in the old Act, namely, it limits the action of the Corporation under section 363 to five years from the date of contravention, and it forces the Corporation to make a choice between prosecution under section 493 and application for magisterial direction under sections 363 or 364. Under the Act of 1899 there appears to be no limit to the time within which action under sections 449 and 450 can be taken, and it was open to the General Committee apparently to prosecute under section 579, then get an order for demolition under section 449, and to prosecute for failure to obey the order of demolition under section 580. In regard to these prosecutions as well as other prosecutions however, section 631 barred action after 3 months, so that for any offence against the Act of 1899 committed between 1st January and 31st March, 1924, it is possible that the repeal of the Act on 1st April deprived the authorities of the power to prosecute, though if the Act had not been repealed the General Committee or other authority could have prosecuted.

This section enables the corresponding authority to prosecute in such cases, and sub-section (5) enables such prosecution to be instituted despite the fact that by section 631 of the Act of 1899 the General Committee even if the Act had not been repealed could not prosecute after the expiry of 3 months from the offence. In effect that period of 3 months is made 6 months by the Bill, but in view of the fact that the life of the old authority was interrupted, perhaps this is justified.

Proposed new section 557B.—This new section seeks to vest the Corporation with the functions of the old General Committee in order to enable the Corporation to deal with applications for abandonment of acquisition under the old Act or to fix the amount of the exemption fee as required by section 359 of the Bengal Act III of 1899.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Report on the Cotton Crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent also in other districts. The "late" crop is chiefly grown in Bankura and Midnapore.

Character of the season.—Except for a slight damage in October in the Tripura State, the condition was generally favourable in the important districts and a satisfactory crop has been reaped, while in Midnapore and Bankura want of sufficient and timely rain affected the outturn to some extent.

Area sown.—The total area sown with early cotton is returned at 76,231 acres and that with late at 1,407 acres, against 75,575 acres and 1,207 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 25,773 bales and the late crop at 328 bales against 23,506 bales and 330 bales, respectively, in the corresponding forecast of the last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 3rd February 1926.

Summary.—Light and scattered showers fell in most parts of the province and facilitated the ploughing of lands for jute and autumn paddy. Reaping of oilseeds, pulses, crushing of sugarcane and picking of cotton are in full swing. The recent showers have proved beneficial for wheat and summer paddy. The prospects of the standing crops are satisfactory. The average price of common rice for the province has risen by about 0·60 per cent. as compared with that of the previous week.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1925.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 6TH FEBRUARY 1926.

RESOLUTION—No. 1655L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1925, received with Director of Land Records and Surveys' letter No. XXIV—2-1822, dated the 2nd January 1926.

The main traverse programme of 950 square miles in the 24-Parganas and 730 square miles in Murshidabad and Birbhum was fully carried out. The area under survey in the 24-Parganas contained much jungle and presented special difficulties; the cost rate has consequently been comparatively high.

2. The programme of revisional operations in the Chittagong district had to be revised, as it was found that, owing to the extension of cultivation and the changes in configuration due to the cyclone. the settlement could not be based on the old maps, and a fresh traverse of the area was necessary.

3. Of the miscellaneous work done by the survey section a noteworthy item is the survey of the rivers Bidyadhari, Peali and Matla at the instance of the Corporation of Calcutta. The work was completed during the year and maps in 43 sheets showing all topographical details have been prepared.

4. Major settlement work was in full operation in the districts of Khulna, Pabna-Bogra and Murshidabad. It was in the closing stages in Bankura, Jessore and Nadia, while work was begun in Birbhum and the 24-Parganas. The revised programme was fully carried out. Records-of-rights have now been completed in 44,876 square miles out of the total area of 65,775 square miles in the Province to which the Bengal Tenancy Act applies. Apart from their value to the public as authoritative records-of-rights in agricultural land property, the records and maps are of great assistance to local officers. The Governor in Council notices with satisfaction that they are being utilised more and more, not merely in the different branches of the Collectorate, but also by the Magistracy, police and local bodies and in the Education, Excise and Sanitary Departments.

5. Mr. A. K. Jameson, I.C.S., continued in charge of both the Survey and Settlement Departments up to the 30th March, when he went on leave, and Khan Bahadur M. A. Momen acted till the end of the year. The Governor in Council has much pleasure in acknowledging the efficiency and care with which both officers have managed the two departments under them, and the interesting and thoughtful report submitted by Mr. Jameson. His Excellency in Council is also pleased to direct that the good work done by Messrs. Fawcus, McPherson, Kindersley, O'Donel and Newton and the remarks of the Director of Land Records about other officers in the last two paragraphs of his report be noted.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette.*

Secretary to the Government of Bengal.

RESOLUTION ON PUBLIC HEALTH ADMINISTRATION IN BENGAL FOR THE YEAR 1924.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 2ND FEBRUARY 1926.

RESOLUTION—No. 293 P.H.

READ—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1924.

READ ALSO—

The annual statistical returns and short notes on vaccination in Bengal for the year 1924-25.

1. **Public Health.**—(Statistical, Epidemiological and General Public Health Administration).

Population.—For the purposes of this review the total population of Bengal excluding the Chittagong Hill Tracts is taken as 46,522,293 (1921 Census).

2. **Birth-rate and death-rate.**—During the year 1924 the number of recorded deaths in Bengal was 1,203,244 against 1,370,114 births. The provincial birth-rate in 1924 was 29·5 per mille as compared with 29·9 in 1923 and the quinquennial average of 28·3. The North-West Frontier Province and Burma returned lower birth-rates than Bengal. The aggregate birth-rate of the towns of Bengal during 1924 was 19·6 per mille against 20·4 in 1923, showing a decrease of 3·9 per cent. In this connection the Director of Public Health points out that "these low birth-rates indicate sheer neglect on the part of the municipal authorities to administer the Births and Deaths Registration Act. Although registration of births is compulsory in towns, yet it is regrettable that in spite of serious efforts on the part of the Public Health Department, repeated from year to year, the local bodies with the exception of a few have failed to have any appreciation of their responsibility in this matter—a factor so essential in estimating the effect of measures undertaken to improve the public health."

The provincial death-rate in 1924 was 25·9 per mille as compared with 25·5 in 1923, the quinquennial average being 29·6 per mille. Madras and Burma returned lower death-rates than Bengal. The death-rate of 1922 was lower than that of any year since 1890. The death-rates of the triennium preceding 1922, when compared with those of the last three years, show a decided improvement, but there are nevertheless signs of a steady increase in mortality. The Director of Public Health remarks as follows :—

"That there is a close connection between economic conditions and public health is universally recognised, but the mechanism of relationship is not apparent. On the one hand are ranged rainfall, the extent of cultivation, the class and variety of crop, the yield per acre, the total harvest and the current prices of the commodities and on the other hand the prosperity of the individual, death-rates and birth-rates and mortality. Speaking generally, prosperity results in a lowered death-rate, an increased birth-rate, and a natural increase of numbers. * * * * * *

"In Western and Central Bengal, the harvest is mainly rice, much of which is used for local consumption. Speaking generally, a large harvest brings increased prosperity, more food and better health. The amount of rice harvest is dependent on the amount and the distribution of rainfall, which vary from year to year. In this part of Bengal it is found—

(a) that over a period of 30 years the trend of natural increase of population closely follows the rice production for the whole province ;

(b) that there is a close correspondence with the yield of rice per acre and the birth-rate. and

(c) the mortality diminished with good rice harvests and increases with poor rice harvests.

"In Eastern Bengal, however, these relationships with rice harvests do not occur, in fact the relationships are rather reversed. The explanation probably lies in the different class of crop grown in Eastern Bengal, viz, jute. The demand for jute is a world-wide one, and the price of jute is therefore often determined by factors outside of Bengal. Falling jute prices, moreover, are associated often with good harvests, a good harvest does not therefore mean increased prosperity, as a good rice harvest does to the people of Western and Central Bengal. Conditions therefore tending to favourable vital occurrences in Western and Central Bengal may tend to unfavourable vital occurrences in Eastern Bengal and *vice versa*, so that it is necessary to appreciate these differences in economic and agricultural conditions before drawing conclusions as to the health conditions in the different parts of the province. On the whole, however, the conditions governing the production of jute are not so liable to fluctuations as those of rice production, and these vital occurrences tend to be more stable in Eastern than in Western and Central Bengal. The desideratum is the stabilisation of both rice harvests and of death-rates, and it would appear that the stabilisation of one would produce a similar effect on the other."

3. **Registration of births and deaths.**—The Director of Public Health has again drawn attention to the continued neglect by municipal authorities in administrating the Registration of Births and Deaths Act. The necessity of obtaining an accurate record of vital statistics on which all sanitary measures depend was emphasised in last year's resolution, and the Governor in Council once more desires to invite the attention of municipal authorities to this important matter.

4. **Infant mortality.**—In 1924 252,337 infants died under the age of one year, as compared with 253,694 during the preceding year, the total mortality showing a net decrease of ·5 per cent. The rate of infant mortality, however, increased from 182·1 per mille in 1923 to 184·2 per mille in 1924.

In 1924, 1,972 deaths from child births were reported, but the figure is not reliable and the Director of Public Health estimates that this figure should, in fact, be much higher.

In comparison with the preceding year, the still-births showed an increase of 3·3 per cent. In showing the proportion of still-births to total births in districts the Director of Public Health states that "however unreliable the registration of still-births may be, it is obviously apparent that in many of the districts............, still-births occur in the proportion of 1 to every 12-16 births. The District Health Officer of Khulna ascribed still-births to the inefficiency of the ignorant country *dais* to resuscitate an asphyxiated child born after a prolonged and difficult labour, the child being thus left as dead on account of its not crying after birth. It is therefore essential that the district boards should seriously consider the question of training country *dais* and thus reduce the number of still-births."

Some district boards and municipalities actually started classes for the training of *dais* in 1923. The Governor in Council hopes that this sensible example will be followed by other boards. The opening of such classes is encouraged by the offer of small subsidies from Government

Cholera.—There were 48,514 deaths from cholera in 1924 against 41,483 in 1923, showing a death-rate of 1·04 against ·89 per mille of the population in the previous year and 1·5, the mean for the previous five years. Although the mortality from the disease was greater than in 1923, the decline on the average of the previous quinquennium was thus easily maintained. The Director of Public Health attributes the decrease mainly to the measures taken by the local bodies to cope with cholera epidemics by employing additional temporary sanitary staff The Governor in Council appreciates the continued excellent work which such voluntary agencies as the Bengal Health Association, the Cholera Brigade of the Central Anti-malarial Co-operative Society and the Bengal Social Service League have done for the prevention of the disease.

The satisfactory results obtained so far tend to show that with the organization of a properly trained staff and the carrying out in every thana of anti-cholera measures, there is every chance of eliminating the disease as one of the chief factors in increasing the mortality of the province. It is gratifying to note that through the publicity work carried on by the Public Health Department by means of lectures and free distribution of popular literature on the prevention of cholera, the general public are beginning to

realise that cholera is essentially a preventible disease. Inoculation against the disease was proved to be most effective and does not appear to be unpopular.

Small-pox.—In 1924 the mortality from small-pox was 5,567 against 4,236 in 1923, 7,86' in 1922, 8.157 in 1921, and 36,190 in 1920. A review of the mortality statistics of small-pox leads to the conclusion that in Bengal a recrudescence of small-pox in epidemic intensity may be expected every five years. The last severe epidemic of small-pox took place in 1919-20 and it was, therefore, apprehended that another epidemic might appear in 1924-25. This apprehension was unfortunately only too well-founded as was shown by the high mortality during the first six months of 1925, though the epidemic was less severe than that of 1919-20.

The total number of vaccinations reported in 1924-25 was 2,662,[illegible] against 2,057,724 in 1923-24, showing an increase of 605,242 or 29·4 per cent. operations. Of the total operations, 1,655,201 were recorded as primary and 1,007,765 as re-vaccinations against 1,590,576 primary and 467,148 re-vaccinations during 1923-24. There was thus during the year 1924-25 an increase of 4·06 per cent. in primary and of 115·7 in re-vaccination operations.

During the year under review all the districts in Bengal except Tippera, Rangpur and Dinajpur, showed an increase in the total number of operations in comparison with the figures of 1923-24. The increase in Calcutta was due to the prevalence of small-pox in an epidemic form during 1924-25. The increase in other districts is also attributable to the same reason as well as to the introduction of free vaccination.

It is satisfactory to note that the supervision exercised by the District Health officers with the assistance of the provincial vaccination inspecting staff contributed in no small degree towards these satisfactory results.

During 1924-25 out of 1,112,074 infants requiring vaccination in the Presidency, 306,344 or 275·4 per mille were reported to have been successfully vaccinated as compared with 302,730 or 262·6 per mille of 1,152,778 infants in the previous year.

Fever.—In 1924 the mortality from fever was 912.408 against 909,795 in 1923, showing a ratio of 19·6 per mille in 1924 against 19·5 in the previous year. Deaths from fever as usual represented about 75 per cent. of the total mortality in 1924, deaths from malaria, enteric and relapsing fevers were less common than in the previous year, while mortality from measles Kala-azar and other fevers increased, the increase under Kala-azar being greatest (119 per cent.). As compared with the mean for the previous ten years, all the divisions showed improvement in regard to fever mortality during 1924, which was most marked in the Burdwan Division, where the fever mortality was reduced by 30·0 per cent. and in the Presidency Division where it diminished by 19·0 per cent. The Chittagong Division showed a reduction of 10·9 per cent., Rajshahi Division 8·2 per cent., and Dacca Division 1·6 per cent.

As regards the increase of malaria in Eastern Bengal districts the Director of Public Health remarks as follows :—

"This increase of malaria in Eastern Bengal districts appears to be associated with the great increase of the water hyacinth, an extensive multiplication of village roads raised considerably above the surface of the country and railway extension in certain areas, notably Mymensingh, all resulting in an interference with flow of flood water in the *bils* and water-courses and across the surface of the country."

The experiments carried on in the colliery area (Singaran-Topsi) and at Meenglas in the Duars with a view to reducing malaria were on the whole successful. As noticed in the last year's resolution, the Banka Valley scheme continued to give good results and effected a further reduction of the spleen index. A flood and flush scheme was in operation at Jangipur, and the results so far obtained were satisfactory.

Kala-azar.—The number of reported deaths from Kala-azar was 9,997 in 1924, against 4,565 in 1923, 1,531 in 1922 and 1,552 in 1921. The number

of Kala-azar cases treated at hospitals, dispensaries and special centres was 139,085 in 1924 against 57,238* in 1923, 13,317 in 1922 and 7,698 in 1921. It is satisfactory to note that several Kala-azar centres were opened by district boards during 1924, in addition to those started by voluntary institutions such as the Central Co-operative Anti-malaria Society and the Bengal Health Association. The Governor in Council desires also to record his warm appreciation of the fine work done at the Kala-azar centres of these two latter bodies.

Their humanitarian work is well organized, and their Kala-azar centres are working on sound, efficient and economical lines. Rai Bahadur Dr. Gopal Chandra Chatterjee and Dr. Bhattacharya have deserved well of their generation.

Sanitary Engineering.—Eight water-supply and sewerage schemes were prepared, and seven detailed projects of municipal water-supply and drainage drawn up by the Chief Engineer, Public Health Department, in 1924. Fifteen water-supply and sewerage projects were under consideration, two water-supply and one sewerage scheme were completed, and four water-supply and one sewerage project were partially completed during the year under review. The total capital expenditure on water-supply in 1924 was Rs. 4,28,774, while the total expenditure on municipal drainage and sewerage works was Rs. 4,13,068.

Personal.—Dr. Bentley and Mr. G. B. Williams have again earned the thanks of Government for their efficient administration of their departments. Dr. Bentley's report is a mine of information which he uses in a striking manner to illustrate those principles or those aspects of public health which have special application to the sanitary conditions of Bengal. Government endorse the appreciative references which these officers make regarding the work of their staffs and desire also to acknowledge the valuable services of the Sanitary Board.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under winter rice in Bengal has represented some 18·7 per cent. of the total area under rice in British India.)

Character of the season.—In the second forecast issued in December last, the weather was reviewed up to the end of October as having been good in East and North Bengal, and fair in West Bengal. Since then dry weather was generally favourable for the field operations.

Acreage.—According to District Officers' estimates, the total area under winter rice amounts to 15,619,300 acres as against 15,589,800 acres in the corresponding forecast of last year.

Outturn.—From the district returns appended, it will be seen that four districts, viz., Bakarganj, Jalpaiguri, Rangpur and Faridpur, report more than a normal crop. Six districts, viz., Khulna, Darjeeling, Bogra, Pabna, Mymensingh and Chittagong, report a normal crop. Eight districts report a crop varying from 83 to 97 per cent., and the rest from 58 to 75 per cent.

As compared with the second forecast, a better crop has been harvested in seven districts, viz., Jessore, Khulna, Hooghly, Darjeeling, Dacca, Chittagong and Noakhali, while in the districts of the 24-Parganas and Midnapore, the crop has deteriorated a little from the previous estimates. In the remaining districts, there has been no change since the second forecast.

According to District Officers' estimates, the provincial outturn works out to 92 per cent. of the normal as against 86 per cent. last year. Taking 12½ maunds as the normal yield of clean grain per acre, the gross yield of the crop for the province is estimated at 6,598,400 tons this year as against 6,156,400 tons in the corresponding forecast of last year.

Third and Final Report on the Winter Rice Crop of Bengal, 1925-26.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1924-25).	This year (1925-26).	Last year.	This year.

24 Parganas ...	840,800	709,600	740,800	92	83	End of October to November. Normal.	The increase in area is due to timely rainfall. The outturn is below the normal for want of rain in November.
Nadia	[illegible]	180,400	130,900	67	67	Latter part of November. Normal.	The decrease in area is due to want of sufficient rain both at the time of sowing and transplantation. Insufficient and unequal distribution of rainfall account for the fall in outturn.
Murshidabad ...	351,460	379,900	378,200	88	82	Middle of November to middle of December.	The outturn is below the normal owing to insufficient rainfall during the latter part of the season.
Jessore	[illegible]	[illegible]	474,900	75	72	November Normal	Some damage was caused by drought in Bongaon subdivision and in the police-station Bagherpara in Sadar subdivision
Khulna	800,600	740,800	732,700	100	100	Ditto ...	The decrease in area is due to want of timely rainfall and to extended cultivation of jute. The weather has been favourable and a normal outturn has been obtained.
Burdwan ...	731,100	755,200	698,200	100	75	End of November. Normal.	The decrease in area was due to insufficient rain. The unequal distribution of rain at sowing time retarded the growth, but subsequent rain partly mitigated the effects of the deficiency. Insufficient rainfall caused damage to the extent of 25 per cent
Birbhum	[illegible]	446,100	587,000	92	67	Latter part of November. Normal.	The weather was not favourable owing to uneven and insufficient rainfall which caused damage. Late transplantation and drought are responsible for the low outturn.
Bankura	440,000	550,000	320,000	75	56	Beginning of December. Normal.	The abnormal decrease in area is due to revision based on settlement records, a large area under transplanted autumn paddy being so long shown under winter paddy. The outturn is much below the normal owing to damage caused by drought.
Midnapore ...	1,537,100	1,450,000	1,411,800	83	75	November. Normal...	The decrease in area is due to want of rain. The outturn is below the normal owing to drought at sowing time and to rain just before harvesting.
Hooghly	[illegible]	184,400	142,600	88	67	Third week of November. Normal.	The decrease in area is due to inadequate rainfall at the time of transplantation. The weather was favourable at sowing time but unfavourable afterwards. The showers in September and October somewhat improved the situation. The outturn is below the normal owing to drought.
Howrah	117,000	92,700	92,700	100	83	Middle of November. Normal.	The weather was fair. The outturn is below the normal owing to want of timely rains.
Rajshahi	[illegible]	[illegible]	[illegible]	100	83	December. Normal...	The increase in area is due to the fact that a large area was transplanted after the submission of the first forecast. The weather was fair. Damage is reported from the Natore subdivision.
